Transfer of Soil Erosion Permit # _____ to New Landowner

Permanent stabilization of a site is required before closing a Soil Erosion Permit. Permanent stabilization is defined as the installation of pavement, rock, established grass and other landscaping that prevents soil movement or loss from erosive forces.

Permanent stabilization is required to close Soil Erosion Permit # _____ issued to

Name: _____

Address: _____

I (we) the undersigned agree to complete and maintain the permanent stabilization of the site and contact the Saginaw County Public Works Commissioner upon completion. It is also understood the I (we) are responsible for keeping a valid permit and maintaining any soil erosion and sedimentation control measures that are required by the permit until the site is permanently stabilized and closed.
