Timothy Genovese Director

To all Saginaw County Police and fire Chiefs

We have been working with Delta College to provide the training allowed under the homeland security grant. Attached is the information from Delta College. After discussions with this office, they have agreed to come to any department that will host the training on any shift to provide the training. We only have until February to use this grant money. Any department that wants to put something together can get with me or go direct to delta if they prefer. The larger the class size the cheaper we can train and the more people we can train with the money.
